Forecast for Monday 19 Dec 2022

Weather: Cloudy conditions expected for much of the day. Strong southwesterly winds will bring rain at times, this heaviest and most persistent around Ben Alder and across Rannoch Moor. Rain will turn to snow on the very highest tops for a short time as it clears away in the early evening. Drier weather expected north of Cairngorm. Much drier weather with clearing skies will spread northeast across all areas during the early evening.

Chance of cloud-free hill tops above 800m: Best chance north of Cairngorm, else 20%

Low cloud and visibility: Extensive cloud down to 600 to 900 metres for most of the day, this clearing from the southwest early evening. Cloud will be more broken north of Cairngorm, and any breaks elsewhere likely to be unreliable.
